EGA POWER
SOLAR REINVENTED

Your electricity problems solved

The Problem

With rising petrol and diesel costs, households and small businesses are urgently looking to replace 3.5kVA–5kVA generators with solar alternatives. However, high upfront capital expenditure remains the single biggest constraint.

Key metrics

Our product provides durabiity and excellence for both business and domestic power requirements ***on outright purchase or credit terms***.

3kW
Inverter

5.12kWh
Battery

Tier-1 LiFePO4
Best-in-class storage

CE · UN38.3 PASSED · MSDS · 2 YEARS WARRANTY

OUR SOLUTION

ALL-IN-ONE ESS

Buy it on credit or outright

A 3kW All-in-One Energy Storage System (ESS) single-chassis, plug-and-play solution integrating a 3kW pure sine wave inverter, battery and MPPT charge controller.

BEST-IN-CLASS BATTERY

Providing long, durable power for business, professional and domestic use.

5.12kWh Tier-1 LiFePO4

PLUG-AND-PLAY INSTALLATION

On-site engineering time saved

Plus significant installation cost savings.

PRODUCT HIGHLIGHTS

3-in-1 Design - Inverter, MPPT and Lithium Battery

- Space saving - standalone or wall-mounted
- Plug & Play - connect panels and start generating!

Hybrid Solar Inverter (3-10kW)

- On/off-grid Ready
- CT Compatible

Premium LiFePO4 Battery (5.12-10kWh)

- Grade A cells
- Long Lifespan

Other Features

- UPS Function - transfer 10ms or 20ms optional
- Multiple working mode - photovoltaic / battery / AC priority
- Smart PV-grid complimentary, zero PV waste
